That time will work good John. See you here at 10. Come up to the third floor and ring the button at the door and I will let you in.

Hello Scott,

Tuesday the 21st works great for me. How about 10am in your office. I would also like to bring John Loper which is our consultant on the project. Also, I would like to ask Jake McDougal from the WVDEP who we have been working with on the project to attend. Please let me know if this time works for you. Thanks!

Hi John, no I won't be around on Friday. I'm in the office Monday through Wednesday of next week though. Would one of those days work for you?

Hello Scott,

I was wondering if you would be available this coming Friday morning, March 17 for a meeting at your office to discuss our proposed project. Please give me a call on my cell 740-628-5223 when you have a minute to discuss. Thanks!

Good afternoon gentlemen. I was forwarded information regarding planned construction activities at the above mentioned site. It appears as though this site may fall under the realm of the Region's PCB program, in regards to construction activities in an area where there is known PCB contamination. I would need to know the specifics in regards to that contamination, and any workplans related to characterization/remediation in order make an assessment as to which regulations would be relative and appropriate. Please send me the specifics of the project so I can provide the proper guidance. My phone number is 304 231 0501. Regards
